

**CITY OF SANDPOINT**  
**REQUIREMENTS FOR OBTAINING A BUILDING PERMIT**  
**CALL BEFORE YOU DIG - 1-800-626-4950**

**\*\*\* ALLOW 7 TO 10 DAYS FOR THE PERMIT PROCESS \*\*\***  
NO WORK WILL COMMENCE WITHOUT A PERMIT

**24 HOUR NOTICE FOR ALL INSPECTIONS**

A \$30.00 Re-Inspection Fee will be assessed for each re-inspection required. Re-inspections are required when the Building Official arrives at the job site, at your request, and the work to be inspected is not ready for inspection or was not corrected per the applicable IRC (International Residential Code) or IBC (International Building Code). To avoid the Re-Inspection Fee, it is the Contractor's responsibility to notify the Building Department at (208) 263-3407 at least two hours prior to the scheduled inspection time to cancel or reschedule the inspection.

If any work on the project is begun prior to application for a building permit and authorization to begin work by the Building Department, an investigation fee will be added to the cost of the building permit fee. The investigation fee will be equal to the amount of the building permit fee required by this code.

*R105.3.2 Time limitation of application. An application for a permit for any proposed work shall be deemed to have been abandoned 180 days after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 180 days each. The extension shall be requested in writing and justifiable cause demonstrated.*

**CITY BUILDING PERMITS APPLICATIONS**

1. Identify and describe the work to be covered by the permit for which application is made.
2. Describe the land on which the proposed work is to be done by legal description, street address or similar description that will readily identify and locate the proposed building or work site.
3. Indicate the use or occupancy for which the proposed work is intended.
4. Application must be accompanied by **ONE COMPLETE SET OF PLANS DRAWN TO 1/4" SCALE AND A PDF FILE** (plans will not be returned) indicating the following:
  - a. Plot or Site Plan with lot size, all existing structures on property, distances to property lines, new building height, as well as driveway, sidewalk, curb cut locations and erosion control plan..

- b. Floor Plan that shows dimensions and total square footage of the structure including the size and dimensions's of all headers. Window and door sizes and types shall be clearly shown, as well as their respective U-Values. In addition, R-Values shall be indicated for all insulation, as well as provisions for air sealing control.
- c. Heating system type, size and location. If natural gas or LP, provide piping, venting and ducting details.
- d. Footing and foundation plans.
- e. Ventilation size, type and location. Size, type, and location of fresh air vents.
- f. Typical wall cross-section.
- g. Framing Plans for roof and floor including shear wall locations.
- h. An engineered design may be required for any residential building if the structure is beyond standard light frame construction under the IRC.
- i. **Commercial Building** - plans must be stamped by an Idaho licensed engineer or architect.
- j. Parking Plan to be in accordance with city ordinances.
- k. A separate permit is required for gas installations. But plans submitted for building permit shall show all gas appliances and vents and combustion air openings.
- l. Energy code requirements:
  - Rescheck – Residential
  - Comcheck – Commercial
- M. Stormwater Permit and Erosion Control
- N. HVAC – Manual J Design
